MIRASOFT – MVN

Mirasoft - MVN is a softening and smoothing finishing agent for imparting soft handle with lubricating effects on woven & knit fabric.

- Soft and excellent feel
- Improved elasticity of knit finished goods.
- Smooth / non greasy handle
- Reduced needle cutting resulting in higher seam strength.
- An ideal smoothing agent
- When applied in resin finishing, **Mirasoft - MVN** reduces the tendency to creasing.
- Suitable for embossed, schreiner and chintz finishes.

Properties:

Appearance	: Off white Liquid
Chemical Nature	: Based on hydrocarbons
Ionic Nature	: Nonionic
Solubility	: Dispersible in cold water in all proportions
pH (2% solution)	: 7.0 ± 1.0
Stability	: Resist to Hard Water
Compatibility	: Compatible practically with all products used in finishing
Storage Stability	: Stable for 3 months if stored in a cool & dry place (Not sensitive to frost)

Method of Application:

Mirasoft - MVN can be used as a single finish and also in combination with resin finish.

1) By Padding

Mirasoft - MVN → 20.0 – 50.0 gpl

General safety instructions

The usual hygiene and safety rules for handling chemicals should be observed in storage, handling and use.

The product should not be swallowed. For further information, please consult existing safety data sheet.

Note : The data contained in this communication are based on our current knowledge and experience. In view of the many factors that may affect processing and application of our product, these data do not relieve processors from carrying out their own investigations and tests; neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions drawings, photographs, data, proportions, weights, etc. given herein may change without prior information and do not constitute the agreed contractual quality of the product. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed. Responsibility for compliance with the requirements of the downstream textile market rests with the textile processor.
