ABSORBANT – T

Absorbent – T is a specialty product, which imparts excellent absorbency on terry towels when treated.

- Does not cause yellowing, hence suitable in white as well as dyed fabrics
- Imparts absorbency to the treated fabrics

Properties:

| | |
|------------------------------|--------------------------------------------------------------|
| Appearance | : Colourless viscous liquid |
| Chemical Nature | : Modified Polysiloxane |
| Ionic Nature | : Nonionic |
| Solubility | : Soluble |
| pH (2% solution) | : 4.5 – 5.5 |
| Stability | : Resist to hard water |
| Compatibility | : Compatible practically with all products used in finishing |
| Suitability for white goods: | Suitable |

Influence on dyed goods

- Shade : Virtually no change
 - Fastness properties : Virtually no influence
- Storage Stability : Stable for 6 months if stored in a cool & dry place.
(Not sensitive to frost)

Method of Application:

Dosage to be used will depend upon the requirement of the absorbency of the finished product. However, in general a dosage of 20 – 25 g/l is recommended.

General safety instructions

The usual hygiene and safety rules for handling chemicals should be observed in storage, handling and use. The product should not be swallowed. For further information, please consult existing safety data sheet.

Note :

The data contained in this communication are based on our current knowledge and experience. In view of the many factors that may affect processing and application of our product, these data do not relieve processors from carrying out their own investigations and tests; neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions drawings, photographs, data, proportions, weights, etc. given herein may change without prior information and do not constitute the agreed contractual quality of the product. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed. Responsibility for compliance with the requirements of the downstream textile market rests with the textile processor.
