MIRACOL – S

Miracol – S is a finishing auxiliary

- It imparts body to the fabric
- It helps in imparting a better fall to the fabric.

Properties

Appearance	: Colourless transparent liquid
Chemical nature	: Vinyl copolymer
Ionic nature	: Nonionic
Solubility	: Soluble
pH of 2 % solution	: 7.0 – 8.0
Stability	: Resist to hard water
Compatibility	: Compatible with starch, gum, glue, mild acids and alkalis and hard water salts as well as ionic and nonionic auxiliaries
Storage Stability	: Stable for 3 months if stored in a cool & dry place

Method of Application

Miracol – S can be very conveniently used on the cotton fabrics as well as on man- made fibre fabrics and also on the different blends and on the delicate fabrics like nylon, viscose, rayon, Jari and brocade types of fabrics also.

In general, concentrations of 25 – 40 gpl may be used on cotton fabrics. For man – made fibre fabrics 20 – 35 gpl **Miracol – S** may be used. These concentrations may further be changed depending upon the type of the finish desired and the type of the fabric being finished.

General safety instructions:

The usual hygiene and safety rules for handling chemicals should be observed in storage, handling and use. The product should not be swallowed. For further information, please consult existing safety data sheet

Note : The data contained in this communication are based on our current knowledge and experience. In view of the many factors that may affect processing and application of our product, these data do not relieve processors from carrying out their own investigations and tests; neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions drawings, photographs, data, proportions, weights, etc. given herein may change without prior information and do not constitute the agreed contractual quality of the product. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed. Responsibility for compliance with the requirements of the downstream textile market rests with the textile processor.
